Hi,  
first let me start with this funny thing...i'm writing  
to you this email using Microsoft techonology(Hotmail) itselt but  
opposing Microsoft way in business.

Yes, i think Microsoft should give some space for other  
companies to work and make money. Appearently that was  
not the goal of Microsoft in the past years.

I do encourage Microsoft innovation and hard work but  
it SHOULD NOT target its work at harming/destorying or taking  
ideas of others and plug them into MS Operating Systems.

I think Bill Gates had made enough money to keep him  
and all his grandsons extremely rich for soooooo long.  
Give it a break Bill Gates.

Regards,  
Muneer
